Welcome Address

by Organising Chairman

Distinguished colleagues, esteemed guests, and friends,

Welcome to Advances 2025, an inspiring gathering of minds from around the globe, here in Trivandrum. As obstetricians, gynecologists, and fertility specialists, each of you contribute to a vision of healthier families, supported through every stage of life with empathy and expertise.

Our journey in medicine, as Hippocrates once said, is anchored in compassion: 'Wherever the art of Medicine is loved, there is also a love of Humanity.' This love for humanity is what binds us, transcending borders and disciplines.

This year, Advances 2025 is a platform not only for exchanging knowledge but for building partnerships. 'The greatest danger in times of turbulence,' as Peter Drucker wisely noted, 'is not the turbulence—it is to act with yesterday's logic.' Together, let us explore fresh perspectives and innovative solutions that will empower us to meet the evolving needs of our patients and communities.

We have much to discover and accomplish in these sessions ahead. May this conference fuel new ideas, spark collaborative efforts, and renew our commitment to transforming lives.

Thank you, and once again, welcome to Advances 2025.
